

Patterns in Human Geography Study Guide

You will need to be familiar with the following concepts for your Geography Test.

A) Understanding Key Vocabulary

site	situation	population density
population distribution	economic system	entrepreneur
primary industry	secondary industry	tertiary industry
goods	services	

B) 3 reasons why people choose to live in cities

C) The 3 natural factors and the 3 human factors that affect population density.

D) Ways that land can be used according to:
residential, institutional, recreational, industrial, commercial and agricultural

E) Situation features and where you live (think of 5 for Hamilton!)

F) What clustered, linear and scattered settlement patterns look like.

G) Define and give examples of Traditional, Command, Market and Mixed economies.

H) Why is Canada's economy a mixed economy? Give examples to support your answer.

I) Give 2 examples of crown corporations in Canada, and give reasons why you think the government controls these businesses.

J) Describe land, labour, capital and entrepreneurial resources

K) Explain and give examples of primary, secondary and tertiary industries.

You can use the study guide on your test!
